

Water Model UN Conference
Lesson Module 1: Toilets and Infrastructure in Schools
Handout

Below is a list of factors that could or could not make a school a safe and conducive learning environment. In small groups, choose the top five most important factors.

School-offered meals

Friendly Teachers

Allowing children to grow into the official language; no punishment for speaking first/native language in school

Teacher trained and educated in local culture

Sanitary Bathrooms

Tolerant and kind student body

Outdoor space

Desks and chairs for each student

Located in central location

Recess and/or physical education

Small class size

Good-tasting cafeteria food

Computer and internet access

Nutritious cafeteria food

Running Water/Toilets

Up to date textbooks

Electricity

Shelter from elements

Visual classroom aids like maps, posters, textbooks, etc.
