++++  
 All members and friends,

Please join us for a late afternoon and evening of food, cool drinks, hot air, even hotter dialogues about sustainable development goals, zero tolerance, human rights, and more, with plenty of opinions! Music by a DJ, with songs from around the globe. Raffle prizes. Bring your kids. Bring a friend (or two, or three), make more friends and promote your cause. Bring **business cards, banners, posters.**

Create opportunities to talk & network between action groups, and discuss how to check which political candidates are GLOBAL CITIZENS. Let's have a great conversation at each table!

**Contribution: \$20.00 at the gate**  
 \* Buffet-style, homemade food  
 \* Donations at the bar most welcome  
 Please rsvp to [info@una-gp.org](mailto:info@una-gp.org)

**Plastic Pollution Problems: we need to take action; all of us, NOW.**  
 The plastic pollution phenomenon globally is immense. Wildlife, ocean life, food supply, you name it, plastic waste is becoming as big a problem for survival as global warming. We cannot escape the need to make large changes as consumers, while also taking up a much more intense effort to clean water ways, oceans, lakes. The UN is sounding the alarm bell. Recycle, reuse, and integrate into new production systems. Develop alternatives and demand that major companies do away with single-use plastics. Can the sanctuary city of Philadelphia stand strong and lead the nation in tackling the Plastic Pollution Problem? Speaker: Christiaan Morssink  
 Goal: To make Philadelphia a global example of how to engage positively on plastic pollution.
