

# Forced Migration: Trauma, Trends, and Solutions

Monday, September 19, 2022

7:00-8:30PM EST

via Zoom

We will hear from three experts with different perspectives and experiences related to forced migration. From global trends to local resettlement, how can refugees and immigrants overcome traumas experienced in-country and fleeing from conflict, and find their way to a new life? How does racism impact their ability to cope, adapt and build resilience? What role can our community play in creating a safe environment?
